LOGBOOK RELEASE 4.0.56.0

Released 01.19.2017
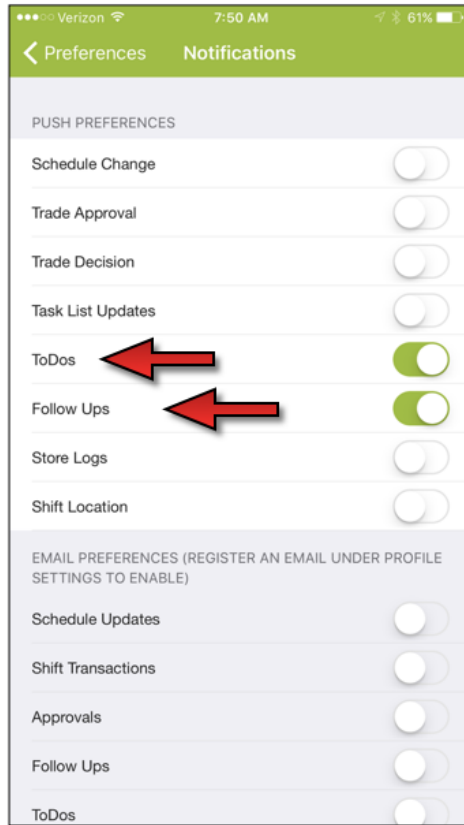

Table of Contents

New Features & Improvements | Mobile

ToDo & Follow Ups Notifications

Mobile users can now opt to receive ToDo and Follow Up push notifications separately by selecting one and/or the other from their Settings preferences.

Push Notifications

Android users can now tap on a push notification for Store Logs, ToDos, and/or Follow Ups and be directed to the corresponding page in the app. This will be available for Task Lists and all iOS push notifications in a future Release.
