Updates to the Automated Task List Summary Report 2

New Features & Improvements | Mobile

Push Notifications

iOS users can now tap on a push notification for Store Logs, ToDos, and/or Follow Ups and be directed to the corresponding page in the app. (This feature became available to Android users in the 4.0.56.0 Release (01.19.2017).) Both Android and iOS users can also access Task Lists the same way.

Updates to the Automated Task List Summary Report

Task Lists can be scheduled to appear daily, weekly, or monthly, and that schedule can be given a name. The Automated Task List Summary report has been improved to display a Task List's schedule while viewing the second level of the report.
