

# HOTSCHEDULES RECRUIT RELEASE 1.51

Released 07.06.2016

## Table of Contents

<b>New Features &amp; Improvements   Mobile</b>	2
Default Work History Positions	2
<b>New Features &amp; Improvements   Web</b>	2
Previously-Entered Information for HS Employees	2
Welcome Emails with Confirmation for HotSchedules Managers	2
Importing Google Photos by Default	2
Selecting Jobs to Post	3

## New Features & Improvements | Mobile<sup>Post</sup>

### Default Work History Positions

Users are now able to save their Work History without selecting a position. If a user does not select a position, the field will default to "Team Member."

## New Features & Improvements | Web

### Previously-Entered Information for HS Employees

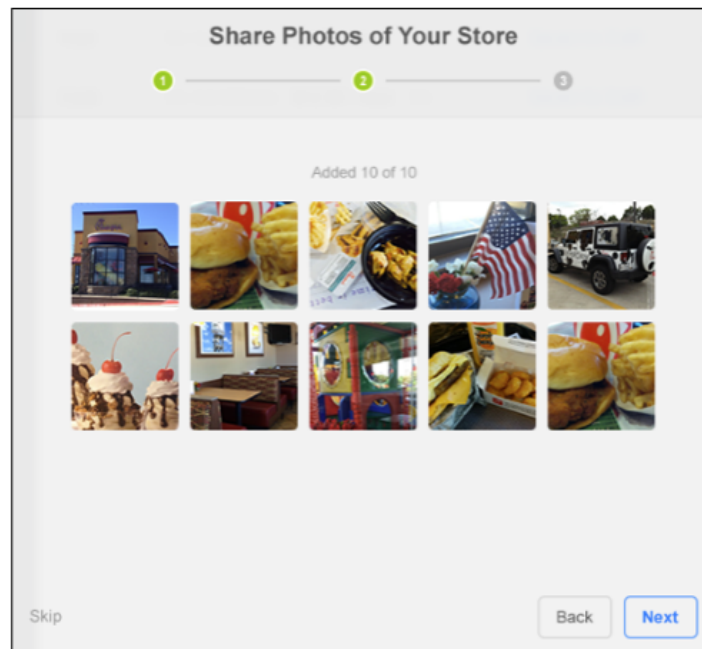

HotSchedules Employees who registered, and had previously entered (and saved) their information will now see the information when they click the link in their Welcome email and view the Profile Wizard.

### Welcome Emails with Confirmation for HotSchedules Managers

Managers who sign into Recruit from their HotSchedules accounts can now confirm their email address through a link in the Welcome email.

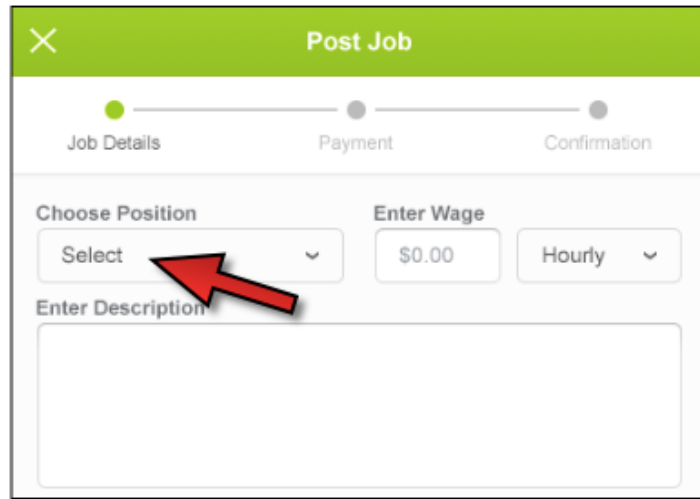

### Importing Google Photos by Default

When setting a store's profile, photos from Google Places will now be imported by default, and users will have the opportunity to click on a thumbnail to decide whether or not they want to save the photo. The maximum number of photos allowed is still ten, so if there are more than ten photos available on Google, the first ten will be imported.

## Selecting Jobs to Post

Posting jobs will no longer default to the Baker position, so users are now required to manually select a job from the "Choose Position" field.

The screenshot shows a mobile application interface for posting a job. At the top, there is a green header with a close button (X) and the title "Post Job". Below the header is a progress indicator with three steps: "Job Details" (active, green dot), "Payment" (inactive, grey dot), and "Confirmation" (inactive, grey dot). The main form area contains three sections: "Choose Position" with a dropdown menu showing "Select" and a red arrow pointing to it; "Enter Wage" with a text input field containing "\$0.00" and a dropdown menu showing "Hourly"; and "Enter Description" with a large text input area.
