Add Search Bar to "Select Store" Drop-Down in ASC	2

New Features & Improvements | Mobile

Redesign of “No Network Connection” Banner

Previously, users received an error popup when they weren't connected to the internet, but now they'll receive a red banner. The banner will include a timestamp if there is data on the page, otherwise, it will instruct the user to refresh the page, which he or she can do by swiping down on the page.

New Features & Improvements | Web

Add Search Bar to “Select Store” Drop-Down in ASC

Above Store Console users can now search for specific HS sites that they have access to via their ASC hierarchy position.
