Importing Photos from Facebook	2

## New Features & Improvements | Mobile

### Set Location When Registering Through Facebook

When users register for Recruit through Facebook, they are given the option to have their location pulled, so they don't have to enter it again.

### Confirming an Email Not Required

Android users are no longer required to confirm their email prior to taking advantage of the app's features.

## New Features & Improvements | Web

### Importing Photos from Facebook

Users now have the option to select their profile picture for Recruit from their Facebook photos.
