New Features & Improvements | Web

Using IP Address to Determine Location

Jobseekers on the web app will have their location automatically pulled from their IP addresses so they can see search results relevant to where they live.

Setting Passwords for HotSchedules Users

HotSchedules users signing up for Recruit will be prompted to create a new password so they have the option to log in manually if they forget their HotSchedules credentials.

A screenshot of a web form titled "create a new password for Recruit". The form is enclosed in a white box with a thin black border and a close button (X) in the top right corner. At the top center is the HotSchedules logo, a stylized four-leaf clover with red, green, blue, and yellow leaves. Below the logo is the title "create a new password for Recruit" in a small, grey font. There are two input fields: "New password" and "Confirm password", both with light grey borders and placeholder text. At the bottom left is a blue "Cancel" button, and at the bottom right is a blue "SAVE" button with white text.

Once a new password has been set, users will be able to access their Recruit account with both their HotSchedules credentials and the email address and new password attached to Recruit. They can continue to access Recruit through HotSchedules, but will be prompted to set a new password each time they log in until one is created.

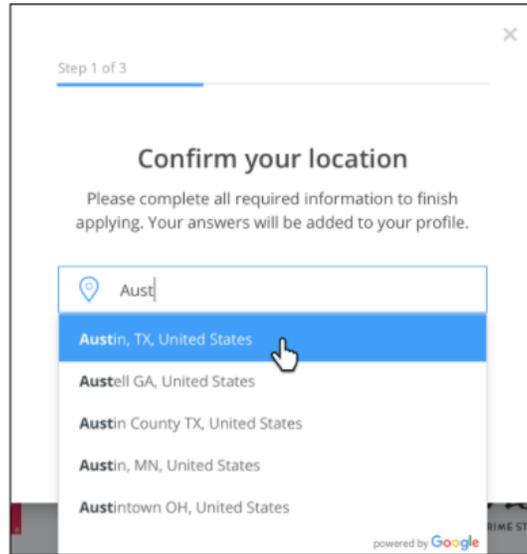

Importing HotSchedules Work History

Users who register with HotSchedules credentials will have their assigned Job Codes in HotSchedules imported to their Recruit Work History based on a conversion table. If a Job Code is imported from HotSchedules doesn't match the options in Recruit, the user will be marked as a "Team Member."

Applying for Jobs

Jobseekers applying for jobs are now taken through a 3-step process to provide pertinent information for employers.

The first step is to provide employers with a location. As Jobseekers type their location, suggestions will appear to make the step easier.

Step 1 of 3

Confirm your location

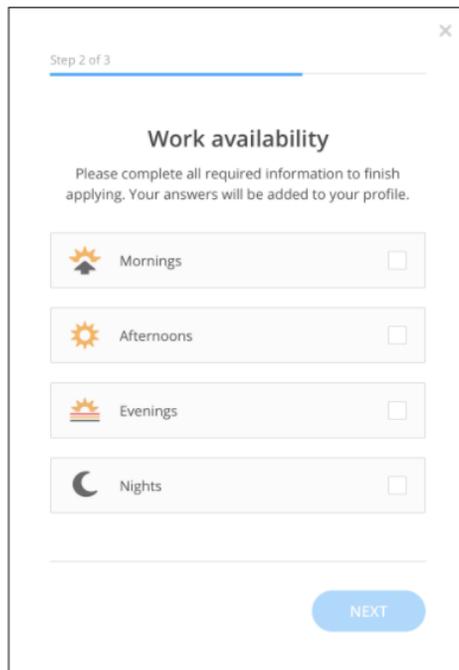

Please complete all required information to finish applying. Your answers will be added to your profile.

Aust

- Austin, TX, United States
- Austell GA, United States
- Austin County TX, United States
- Austin, MN, United States
- Austintown OH, United States

powered by Google

The second step in the process is to provide availability with the provided day parts.

Step 2 of 3

Work availability

Please complete all required information to finish applying. Your answers will be added to your profile.

Mornings

Afternoons

Evenings

Nights

NEXT

All applicants must answer three Basic Info questions to ensure eligibility, and they do so in the third step of the process.

Step 3 of 3

Basic Info

Please complete all required information to finish applying. Your answers will be added to your profile.

I'm at least 18 years old.

YES NO

I have reliable transportation.

YES NO

I'm legally eligible to work in the United States.
